**Sexual Health Indicators - Active Duty Sailors and Marines** (12/22/2009)

		reported cases	rate	goal	trend	goal status	comment
<b>Marines</b>	Gonorrhea	182	99.6 / 100K	19 / 100K			2008 data. Rate per members on active duty midyear. Does not include cases among recruits. 2008 rates up from 51.5 in 2007. USMC rates are significantly lower than US rates for age groups 20-34, both genders.
	Gonorrhea among females	27	236.7 / 100K	296 / 100K			2008 data. Rate per female members on active duty. Does not include cases among recruits. Rate up from 166.6 in 2007.
	Chlamydia	1076	589.1 / 100K	3%			2008 data. Rate per members on active duty midyear. 2008 rate up from 315.3 in 2007. (note - 2008 rate among women up to 2665 from 1656.9 in 2007). Does not include cases among recruits. Because the population is largely male, rates are not comparable to civilian populations. Prevalence is unknown.
	HIV	16	13 / 100K	8 / 100K			2008 data. Rate per number of members tested. 2008 rate down from 15.5 in 2007. Case numbers are small.
	Syphilis	11	6.0 / 100K	2.2 / 100K			2008 data. Cases up from 5 in 2007. Rate for males was 5.8; rate for females was 8.8 (1 case).
	Unplanned Pregnancy	estimated via survey					2008 data; among active duty enlisted aged 21-24, 1 in 10 surveyed men and 1 in 4 women experienced a UPP in the past 12 months.
	condom use	n/a	41.1%	50%			2008 data. Condom use at last encounter by unmarried members. Rate down from 45.2% in 2005.
<b>Sailors</b>	Gonorrhea	266	79.6 / 100K	19 / 100K			2008 data. Rate per members on active duty midyear. Does not include cases among recruits. 2008 rate up from 63.2 in 2007. Navy rates significantly lower than US rates for age groups 20-34, both genders.
	Gonorrhea among females	73	150.5 / 100K	296 / 100K			2008 data. Rate per female members on active duty. Does not include cases among recruits. 2008 rate up from 140.2 in 2007.
	Chlamydia	2020	604.7 / 100K	3%			2008 data. Rate per members on active duty midyear. Does not include cases among recruits. 2008 rate up from 328.4 in 2007 (note - 2008 rate among women up to 1859.7 from 1140.1 in 2007). Because the population is largely male, rates are not comparable to civilian populations. Prevalence is unknown.
	HIV	86	36 / 100K	8 / 100K			2008 data. Rate per number of members tested. Rate up from 33 in 2007.
	Syphilis	41	12.3 / 100K	2.2 / 100K			2008 data. Cases up from 15 in 2007. Case numbers are small. Rate for males was 12.3; rate for females was 12.4 (6 cases).
	Unplanned Pregnancy	estimated via survey	36%	70%			2008 data; surveyed enlisted Sailors only; rate unchanged from 2005. Also over 1 of 10 enlisted male and 1 of 5 enlisted female aged 21-25 reported UPP in past 12 months.
	condom use	n/a	45.5%	50%			2008 data. Condom use at last encounter by unmarried members. Rate down from 46.1% in 2005.
